## Hiring Manager

Accenture Thailand

Bangkok, Thailand

Dear Hiring Manager,

I am writing to express my genuine interest in the Front End Developer role at Accenture. With 8+ years of experience specializing in React and TypeScript, I am excited to contribute to your digital transformation initiatives.

### Technical Alignment:

Your requirements align well with my experience:

- **Core Skills:** React, TypeScript, JavaScript ES6+, REST APIs, Git
- **Build Tools:** Proficient in Webpack and Vite
- **Testing:** Jest, React Testing Library, Cypress
- **Additional:** GraphQL, Material UI, Tailwind CSS, GitHub Actions, Docker, Figma

### Recent Contributions:

- Contributed to 27% user traffic increase through web optimization at PropertyScout (Q3 2023)
- Improved Core Web Vitals, reducing LCP from 4.5s to 1.2s at 99.co
- Helped establish component libraries and mentored team members

I am interested in Accenture's technology leadership and inclusive practices. My experience across real estate, gaming, and travel sectors has prepared me to adapt quickly and deliver client-focused solutions. While my primary expertise is in React, I am eager to expand into Vue.js and Angular as needed.

I would appreciate the opportunity to discuss how my background can contribute to your team's success.

Thank you for your consideration.

Best regards,

**Kenni Gandira Alamsyah**
