PROFESSIONAL SUMMARY

Frontend Engineer with 8+ years of experience developing scalable, high-performance web applications across real estate, gaming, and travel industries. Strong expertise in React, TypeScript, and Next.js with proven impact in design systems, performance optimization, and cross-functional product development. Delivered measurable business results including 27% user traffic growth, 40% compilation time reduction, and 73% performance improvement (LCP from 4.5s to 1.2s). Proficient in translating Figma designs into production-ready features and building component libraries with Storybook for enterprise teams.

WORK EXPERIENCE

- | | | |
|--|--|--------------------------|
| Software Engineer | PropertyScout, Bangkok, Thailand | March 2023 – Present |
| <ul style="list-style-type: none">- Developed and deployed web application revamp driving 27% increase in user traffic within Q3 through strategic performance improvements and enhanced user experience.- Partnered with UI/UX designers to transform Figma designs into production-ready React and TypeScript components, ensuring pixel-perfect implementation and optimal user experience.- Modernized technology stacks across multiple web properties, improving performance, security, and maintainability for enhanced platform stability.- Enhanced internal operational tools using modern frontend frameworks, increasing team productivity and workflow efficiency. | | |
| Software Engineer | AccelByte, Remote | June 2022 – March 2023 |
| <ul style="list-style-type: none">- Developed enterprise-grade tools and interfaces enabling AAA game developers to build and scale multiplayer games using React and TypeScript.- Drove developer experience standardization initiative, achieving 40% reduction in compilation time through build optimization and tooling improvements across the engineering team.- Established comprehensive component styling and documentation framework using Storybook, ensuring design system consistency and accelerating feature development.- Initiated knowledge-sharing sessions and code convention standardization, elevating frontend team capabilities and code quality. | | |
| Frontend Engineer | 99.co, Bandung, Indonesia | July 2020 – July 2022 |
| <ul style="list-style-type: none">- Optimized site performance reducing LCP from 4.5s to 1.2s (73% improvement) through Core Web Vitals optimization and strategic performance enhancements.- Improved site traffic through SEO improvements and schema validation, enhancing search visibility and user acquisition.- Recognized with "Own It" Quarterly Award Q2/21 for exceptional product ownership and initiative in delivering high-impact features.- Maintained rigorous Core Web Vitals optimization and performance monitoring, ensuring consistent user experience excellence. | | |
| Frontend Engineer | Tiket.com, Jakarta, Indonesia | August 2019 – July 2020 |
| <ul style="list-style-type: none">- Developed and shipped features for high-traffic travel booking platform using React, TypeScript, and Redux, serving thousands of daily users.- Built and maintained comprehensive component documentation with Storybook, enabling consistent UI development and faster onboarding.- Conducted regular refactoring initiatives for improved code scalability, maintainability, and long-term technical health.- Collaborated with product team to deliver UX enhancements and feature improvements that elevated user satisfaction. | | |
| Frontend Developer | Mirum Agency, Bandung, Indonesia | July 2018 – August 2019 |
| <ul style="list-style-type: none">- Developed WordPress-based university platform (UPH) with custom functionality tailored to complex educational requirements.- Created customizable solutions for intricate client requirements using PHP and JavaScript, delivering flexible and maintainable systems.- Built fully functional websites spanning backend to frontend, demonstrating full-stack development capabilities. | | |
| Web Developer | Hazani Rangka Utama (Hartama),
Bandung, Indonesia | April 2017 – August 2018 |
| <ul style="list-style-type: none">- Developed and published three WordPress themes for ThemeForest marketplace, demonstrating commercial-grade development expertise.- Ensured W3C validation and accessibility compliance, delivering inclusive and standards-compliant web experiences. | | |
| Front End Developer | PT NTCL, Yogyakarta, Indonesia | March 2016 – March 2017 |
| <ul style="list-style-type: none">- Started career as software engineer, building multiple production applications including e-learning and ticket booking platforms.- Contributed to team growth by interviewing and recruiting frontend developers, helping expand engineering capabilities. | | |

TECHNICAL SKILLS

Frontend: React.js, React Native, Vue.js, Next.js, Redux.js, TypeScript, JavaScript, HTML5

Styling: Tailwind CSS, CSS3, SASS/SCSS, Styled Components, CSS-in-JS, Bootstrap

Backend & APIs: Node.js, NestJS, GraphQL, Express.js

Build Tools: Webpack, Vite, Gulp.js, npm

Testing & Docs: Jest, Cypress, React Testing Library, Storybook

Tools: Git, GitHub, Bitbucket, Jira, Confluence, Figma, Elasticsearch

Performance: Core Web Vitals optimization, SEO implementation

KEY ACHIEVEMENTS

Performance & Growth: 27% user traffic increase at PropertyScout, 40% compilation time reduction at AccelByte, 73% LCP improvement at AccelByte

99 Group Hackathon | *Best UI/UX Design Award*

Quarterly Award Q2/21 | *Exceptional Product Ownership*

EDUCATION

SMK Negeri 7 Bandung | *Analytical Chemistry*
