Professional Summary

Frontend Engineer with 8+ years of experience building web applications using React and TypeScript. Contributed to measurable improvements including 27% traffic growth, performance optimization (LCP from 4.5s to 1.2s), and enhanced developer productivity across travel, real estate, and gaming industries. Recognized for UI/UX design work and consistent delivery of functional, user-friendly solutions.

Work Experience

Software Engineer PropertyScout, Thailand 2023 – Present
- Contributed to web application revamp that resulted in 27% increase in user traffic (Q3).
- Worked on Core Web Vitals optimization, helping achieve 1.2-second page load times for improved mobile and desktop experiences.
- Implemented responsive components from Figma designs through collaboration with UI/UX design team.
- Integrated RESTful APIs for real-time property listing platform.
- Improved internal development tools, contributing to enhanced operational productivity.

Software Engineer AccelByte, Remote 2022 – 2023
- Developed game developer dashboard using React and TypeScript for AAA game development teams.
- Contributed to 40% compilation time improvement (15 to 9 minutes) through Webpack optimization.
- Established component styling standards and Storybook documentation for design system consistency.
- Implemented efficient data fetching patterns and asset optimization for frontend performance.
- Participated in knowledge-sharing initiatives to standardize code conventions.

Frontend Engineer 99.co, Bandung, Indonesia 2020 – 2022
- Improved Largest Contentful Paint (LCP) from 4.5s to 1.2s through Core Web Vitals optimization.
- Contributed to 25% increase in user engagement through performance enhancements and responsive design improvements.
- Helped increase organic traffic from 4,000 to 7,500 monthly visits (87% growth) through SEO optimizations and schema validation.
- Created reusable component library and style guide that improved frontend team velocity by 30%.
- Received "Own It" quarterly award for product ownership and commitment to quality.

Frontend Engineer Tiket.com, Jakarta, Indonesia 2019 – 2020
- Contributed to TypeScript migration, establishing type safety across travel booking platform.
- Developed booking and payment features using React, TypeScript, and Redux.
- Maintained component documentation with Storybook for design consistency and developer productivity.
- Participated in code refactoring initiatives to improve scalability and maintainability.
- Collaborated with product managers to enhance user experience based on customer insights.

Frontend Developer Mirum Agency (now VML), Bandung, Indonesia 2018 – 2019
- Developed WordPress-based platform for Pelita Harapan University (UPH) serving 30,000+ students.
- Delivered responsive, cross-browser compatible solutions across multiple client projects.
- Built full-stack features integrating frontend components with backend PHP services.
- Maintained timely delivery and quality standards across diverse industry projects.

Web Developer Hazani Rangka Utama (Hartama), Bandung, Indonesia 2017 – 2018
- Developed three WordPress themes for ThemeForest marketplace, achieving 10,000+ total sales.
- Ensured W3C validation and accessibility compliance across all projects.
- Implemented responsive design patterns and cross-browser compatibility.
- Managed customer support, delivering theme customizations and issue resolution.

Frontend Developer PT NTCI, Yogyakarta, Indonesia 2016 – 2017
- Built e-learning and ticket booking applications using HTML5, CSS3, and JavaScript.
- Contributed to team growth from 3 to 15 members through interview participation.
- Participated in establishing development standards and best practices.
- Balanced dual role as frontend developer and UI/UX designer across multiple projects.
